MEDICAL SHIPPING COMPANY OFFERS CHARTER AIRCRAFT SERVICES

ShipCritical Rolls Out Life Saving Option

NAPLES, FLORIDA, USA, November 17, 2015 /EINPresswire.com (<http://www.einpresswire.com/>) -- In the world of medical shipping (<http://shipcritical.com/medicalshipping/>), absolutely every second counts. One half-step taken too late means the difference between life and death, and when time is of the essence, ShipCritical is there for healthcare facilities and patients alike with charter aircraft services (<http://shipcritical.com/charter-aircraft-services/>).

A Closer Look

When you're in the business of saving lives, the simple reality is that you can't wait for a commercial flight to arrive at your destination. Whether you're talking about layovers and no direct routes or an after-hours situation, your shipment must remain viable, and ShipCritical's charter aircraft service along with their commitment to high quality medical and tissue shipping services can ensure that happens every time.

"The philosophy standing behind ShipCritical has always been to ensure critical equipment and materials reaches its destination safely and quickly, and our charter aircraft services fit that option perfectly," said Joe Pavone – President and Founder.

As with any of their services, this one is fairly easy to book. A client simply contacts ShipCritical with their request, then they provide a private plane to immediately fly as close as possible to any specific destination city at any point in time.

The ShipCritical Difference

ShipCritical has been the name to know in medical shipping since 1989. With dedicated experts who work strictly with the medical field, they've developed a network of transportation solutions and logistics processes to ensure the integrity of every single shipment.

"Our handling follows strict protocols not only to help you remain compliant, but also to ensure you get the fastest possible route. We're redefining medical transportation services (<http://shipcritical.com/medicalshipping/>) every single day, and that means you get an entirely different level of speed and care," said Joe Pavone – President and Founder.

ShipCritical also provides a robust tracking system that includes ongoing details and alerts regarding the status of each

shipment to make it easier to do what you do best - save lives.

To learn more about ShipCritical's charter aircraft services, contact them immediately.
