

5 Quick TIPS FOR SMOOTHER SHIPMENTS

Step 1

DEFINE TYPE OF SHIPMENT

Is this a single or ongoing shipment?

- Single = a one time shipment
- Ongoing = defined as multiple shipments that are ongoing. Possibly be part of program, product launch, trial, etc

Step 2

DESTINATION TYPE

Is the destination for the shipment remote or a large city?

- Remote = harder to get to, more expensive, less options related to specialized services like freezers, etc.
- Large city = More flights, access to specialized services like freezers more accessible.

Step 3

DEFINE SHIPMENT DETAILS

What is being shipped aka Contents?

What container type are items shipping in? For Example: crate, pallet, boxes, pad-wrapped, etc.

Dimensions of the containers

Step 4

DEFINE SPECIAL SERVICES NEEDED

- Does this shipment need a Lift Gate to deliver? (a lift gate gets items from the truck to the ground when a dock is not available)
- Is Inside Delivery necessary?
- Does this shipment need to be kept at a constant temperature during shipping?
- Does this shipment need cold or freezer storage?

Step 5

DESIGNATE DELIVERY DATE & TIMES

The wider the date and time of delivery and pickup can be will typically result in better cost and schedule flexibility.
